Placeholder text. This paragraph shows the body style of the journal: EB Garamond Regular, 10.5 pt on 14 pt leading, justified, in two columns with a 6 mm gutter. Your own copy replaces it, and the styles update across every page.

Placeholder text. Paragraphs after the first are indented 4 mm with no extra space between them, which keeps long articles calm and even. Running headers, page numbers and the baseline grid stay fixed, so new issues or sections can be set quickly from the same template.

Placeholder text. Subheadings are set in Jost SemiBold in the accent colour. Captions, tables and notes use Jost Regular at a smaller size, so supporting material is easy to tell apart from the main text.
